

SXL is committed to pedestrian safety

Parents and carers must actively supervise all children in their care arriving to and leaving classes.

Watch – Look – Listen – Be alert of cars and trucks.

Always hold your child's hand until they are at least 8 years old:

- when crossing the road
- in car parks and near driveways
- hold their hand to keep them safe when vehicles are – or could be around
- watch out for trucks – stay clear of trucks reversing or making deliveries

Each child is precious. Make sure you educate your child regarding Road Safety.
